Ethics In The Fashion Industry

Synopsis

Knock-off designer handbags, shoplifting, sweatshop labor, provocative advertising, these are just a few examples of complex ethical issues in the fashion industry today. Ethics are about making good decisions, and in the fashion industry-where it is essential to work cooperatively with many different people-understanding ethics is key to being an honest, informed, and effective employee. Ethics in the Fashion Industry provides readers with the tools they need to develop and practice ethical decision-making skills.
