## Customer Reviews

This is a book insurance companies wish was not in print! It gives the average consumer an edge on insurance purchasing and understanding how the rackets really works!! Highly recommend it.

That is what happened to me after reading this book. They don't teach you this stuff in college or in newspapers. The insurance companies try to hide it from you in order for them to keep making tons

of money. Protect yourself and buy this book. Your investment of 12 dollars saves you thousands.

ok.
