Most adults who are diagnosed with Alzheimer's like to remember good times. These individuals have had young children of their own or now they have grandchildren. They know how much children and animals go together. This book allows a person who is living with Alzheimer's to reminisce and share lots of adventures about children/animals. I highly recommend this book, or any of Rachael Hale's books to give as gifts or use in activity with adults who are living with Alzheimer's or other dementias. See more at Remembering4You (dot) com. This book could not be cuter - If you're looking for a lovely gift - a cheer-up surprise - a 'coffee table book' for conversation starting - this is perfect. Talented photographer/great subjects.

Everything Rachel McKenna does is adorable! She has an incredible talent connecting with babies and animals. I love her work.

Cute but not a book that my grandchildren (age 3 and 5) seem fascinated with.

I bought this book for my daughter, who is studying photography. There were some great photos in there, but I thought the book would be a little more instructional.
