Customer Reviews

We've been students of John and Wade (the authors) for the past 21 months and these two guys are fantastic teachers of the financial markets. We finally got the concept of Forex/Markets trading thanks to John and Wade's education. They taught us basics and advanced skills to read charts and trade with profits. They provide simple, no non-sense information needed to understand Forex. You'll love their style and sincerity to educate. Must read - highly recommended material.

I have read a number of books, subscribed to multiple courses. Have to say that this book and the

accompanying website is rich of information !Every beginner/intermediate forex trader should grab a copy of this book.-Sai

This is a must read book for those of you who are interested in forex trading. Expands on their original book Profiting with Forex - I own both. John Jagerson and Wade Hansen are not your typical market commentators. They seek to teach traders a more realistic way of trading the markets. Since following their free site, learningmarkets.com, I have gone from losing 90% of my account to being up 34% this year. I highly recommend their free training videos, and their books, which are succinct, easy to read, and packed full of aha moments. A breath of fresh air in this market peppered with charlatans and stock pumpers.

John and Wade are excellent teachers of the market! In addition to being authors, they offer daily webinars. They present an unbiased opinion of the daily markets.

A useful reference guide for Forex but not really about trading techniques.Glad I purchased this book and would buy more from same authors.
