The Bank On Yourself Revolution: Fire Your Banker, Bypass Wall Street, And Take Control Of Your Own Financial Future

Synopsis

New York Times bestseller Do you know what your retirement account will be worth on the day you plan to tap into it? Do you know what the tax rates will be for the rest of your life? Do you know how long you're going to live? Most people have no clue...and that's the problem with conventional financial planning: It's based on things you can't predict or control. Wall Street lost more than 49% of the typical investor's money – twice – since the year 2000. And studies show that because they followed the conventional wisdom, almost half of all Boomers won't have enough money to cover even basic living expenses during their retirement years. Now the financial gurus whose advice got you into this mess in the first place are telling you to "take more risk," "work till you drop," and "plan on spending less in retirement." Don't let them fool you again! In *The Bank On Yourself Revolution*, financial security expert Pamela Yellen details how hundreds of thousands of people of all ages and incomes have bucked the system to secure their families' financial futures without gambling in the Wall Street Casino or taking any unnecessary risks. You'll discover a proven step-by-step plan for growing your wealth safely, predictably, and guaranteed every single year – even when the markets are tumbling. And you'll learn how to bypass banks, credit card and financing companies to become your own source of financing for cars, vacations, a college education, business expenses and other major purchases. *The Bank On Yourself Revolution* isn't a "get-rich-quick" scheme; it's about having real wealth and financial security for as long as you live. You can finally know how much money you'll have next year, in 10, 20 or 30 years – and at every point along the way. Join the Revolution and take control of your own financial future!

Customer Reviews

I read Pamela's first book in 2012 after doing some research on the Bank on Yourself or Infinite Banking concept that was brought to my attention in late 2011. I had met with a financial adviser in 2011 to discuss our finances and retirement. After reading 1st book, my wife and I decided to contact a BOY adviser in our home state to open a policy for each of us. Our adviser was really cordial, professional and helped us start the policy in early 2013. It was easy to understand and the concept make sense to me. I am pretty familiar with money, finances, stocks, futures, etc., so I got the gist of how this works. One year later we received our first Annual Statement and we both are pleased. Our cash values did actually exceed Guarantee and Projected amounts for the end of 1st year. Everything looked good and we are proud to be part of this BOY Revolution! We have a clear picture of what our money will be in the future -- short and long term. As planned we will use our funds (Cash value) for investments, auto purchases and expensive trips! Of course, retirement planning is our main goal and we are well on our way! Earlier this year, we received Pamela's latest book... "The Bank On Yourself Revolution", from our BOY Adviser as a gift. I read the book in less than 2 days and it is even more informative than her first book. It is well written -- explains more of the concept in detail and really shows what the BOY process can do by her cleverly using the Boat, mast, sail and rudder analogy. There are also charts and graphs in the book to further explain how the Bank on Yourself concept when fully utilized can really help financially during your "living" years and help during "retirement".
