Judging Exhibitions: A Framework For Assessing Excellence

Synopsis

Renowned museum consultant and researcher Beverly Serrell and a group of museum professionals from the Chicago area have developed a generalizable framework by which the quality of museum exhibitions can be judged from a visitor-centered perspective. Using criteria such as comfort, engagement, reinforcement, and meaningfulness, they have produced a useful tool for other museum professionals to better assess the effectiveness of museum exhibitions and thereby to improve their quality. An attached CD includes a brief video demonstrating the Excellent Judges process and provides additional illustrations and information for the reader. Tested in a dozen institutions by the research team, this step-by-step approach to judging exhibitions will be of great value to museum directors, exhibit developers, and other museum professionals.

Customer Reviews

The approach this author takes to judging exhibitions is an approach I can use in a wide variety of organizational and community settings. This approach is intuitively logical and easy to grasp. It is elegantly simple and not at all simplistic.

I recieved this book and DVD as part of my Museum Studies Masters degree program. It looks like a wonderful book - but reading it is totally hampered by A LOT of missing text. After each chapter heading - the entire page is blank - with non-existent sentences continuing on the next page. Entire pull quotes are missing - with only the persons name left hanging in a box by itself. It's a shame - not the writer or the subject matters fault this book is only getting 3 stars...Left Coast Press needs to

press check thier publications!

It was shipped fast and came in brand new condition. I do not know how fair the price was, as other places and the university did not have in stock and I never knew what the price was at other places. I did not realize till after I ordered that book should include DVD. I was worried, but the book came with the DVD so I was in good shape. Seller could mention the DVD in ad. Overall, a good experience. I was able to get a book I needed quickly and I believe at a fair price. I gave 4 stars because the transaction was fast quick and effective.
