Customer Reviews

For a beginner's book, I think this has been comprehensive and detailed. In fact, any newbie on Day Trading will surely get more info here. If one wishes to make it good financially and without the stress and pressures of a normal 9-6 job, this book will be able to explain more how it can be done. I was able to understand Day Trading more too. Now I have an idea that endeavor is a quick and safe way to make money by trading stocks within a day's exchange. Informative, this is what this book is.

The most comprehensive eBook about Day Trading I've ever come across with. It contains a brief introduction about the basics of option trading and the different types of stocks. You will also learn the do's and don'ts and the use of cheat sheets to making the right choices while investing.

Discover the techniques and strategies that are used in Day trading and find out how you can apply it. I find this eBook very educational because everything you need to know is in this eBook. I believe this is the perfect tool you can use if you want to expand your knowledge about Day Trading. What I like about this eBook is that every details are properly discussed and the context are clear and easy to understand. Highly recommend for all beginners!!!

Well, it is given that when you invest your money into something it is guaranteed that you are also risking the money. That being said, I would recommend that you study first the investment type. This book teaches you the very basic or options trading. You will also learn how to trade options, learn the strategies, what you should do and shouldn't do, and it will introduce you to the jargons of day trading. I would say this is NOT a sophisticated book about day trading. It is simple, straightforward, it is also easy to understand. This book won't intimidate you with intricacies of day trading, save that when you already know what this is all about and you are ready to invest. The author kept it simple and informative. For beginners, this is a good book. So stay informed. Read. Study. Apply.

Now making money never be too difficult. This book gives you some of the great and very useful tips with which you can easily making through day trading. This is a great guide for beginners to get extra income. In this book you will learn about the basics of Day Trading, different techniques which are very effective and many more things required for trading. Very useful and important book

This is a wonderful Book.A best book on day trading for the beginners. I am new in day trading nad I was really need guide how to trade then my friend suggested me this book, then I bought and read. This was really amazing. I found many answer of my questions in this book which improved my skills. This book is a complete introduction on trading. The author also described different techniqes which can help you to success in trading. I really loved this book and highly recommended.

This is undoubtedly a very well detailed and well-written book on day trading. I'm a novice in this and although I liked this book, I was abit overwhelmed with all the information this book contains.

For a newbie, this is too much to soak in but there's no harm in all those informationas it will definitely help to understand this trade better.After all the basic knowledge about basic types of day trading information, what are stocks, it's type, what is best to trade - chapter 9 is wheregetting started with day trading starts!Chapter-11 is understanding the stock markets, which is very important I believe in this business. My favorite part of the book is mistakes new traders make. Here the author has revealed common mistakes thus we can avoid it.Other than that, every chapter has in-depth details about day trading. I'm hoping to try my luck out in this soon!

Find the methods and systems that are utilized as a part of Day exchanging and discover how you can apply it. I discover this eBook exceptionally instructive in light of the fact that all that you have to know is in this eBook. I trust this is the ideal apparatus you can utilize on the off chance that you need to grow your insight about Day Trading. This book won't threaten you with intricacies of day exchanging, save that when you definitely recognize what this is about and you are prepared to contribute. The creator kept it basic and useful.

I've been studying stock market full time from Morning to Night for 1 year and pape rtrading. If I haven't read this book I'd still be scratching my head trying to figure out why things happen in the market. Day trading by James is an information-packed guide that leads you through techniques and tactics you'll need to become a winning trader, and does it in an upbeat, easy-to-understand format. Read this book if you want to know how the market works and how to make it work for you.
