Customer Reviews

A very interesting and simple-to-understand book on something most people consider quick an in depth and complex topic. The flow of the book is great in that it starts off right at the beginning and builds up to the main themes, such as "options", "bearish" and "short iron butterfly" which would otherwise make absolutely no sense to the average person. Anyone interested in trading would benefit from this handbook.

This book is great in that it provides you with the essentials of what is needed to understanding options and strategy. The book has really helped me to understand terminology and reading charts. This book is a great guide and I recommend it for those looking to explore the world of option trading.

I think this is a good book and covers all you need to understand Option spread trading. It's not an easy thing to understand especially if you are new to the topic but the book makes it easy to grasp the concepts. The book covers everything to what Option spread trading is all about, it covers the various types, set ups and and of course its management. I have obtained few related books but this book is the best one so far. Its well written, formatted and composed. This is a great book and it offers great value to aspiring option traders who are looking for safe returns with low-risk.
