Customer Reviews

I liked the book because it was easy to read and understand even though I didn't take much art in school. Will help me organise and decorate my very small space bedroom. I rent a room with a roommate and I want my half to be an inspiration not a eyesore.

If you want to learn about interior design and gain some valuable tips - then do yourself a favor and read this book.

This is a good framework for interior design. Is it the end all to be all? No, and I wouldn't want it to be. It is a very good beginning place.

It's a very short book, has exactly 9 pictures -including a Thank you picture with two dogs-. As a beginner I was looking for general principles and examples, and this book fell short in both aspects.
