This book was very informative about the facility "check lists" that anyone managing the facility would need to consider. This book has opened my eyes to the complex management tasks that go on every day. I would recommend this book to anyone wanting to manage a facility someday.

As an associate professor at the University of New Haven in Connecticut and having has taught sport facility management for more than 10 years, Gil B. Fried draws upon his experience and expertise to provide a completely updated and significantly expanded second edition of "Managing Sport Facilities", which is justifiably considered to be an essential reference for anyone charged with sports facilities management from local community centers to large commercial stadiums.

Thoroughly 'reader friendly' and superbly organized, this new edition of "Managing Sport Facilities" includes an expanded section on risk management, timely information on security issues, and is enhanced as an ideal tutorial for anyone seeking a career in sports facilities management. Of special note in this 368-page compendium is the concluding section on 'Event and Activity Management'. Enhanced with an extensive glossary, reference list, and a comprehensive index, "Management Sport Facilities" is ideal as a curriculum textbook and is an essential addition to academic library reference collections.
