Customer Reviews

A typically excellent Lonely Planet guide book. You get much more than Zion and Bryce Canyons - the guide covers all the other national parks and monuments in Southern Utah, and includes helpful suggestions for lodging and activities in the areas surrounding the parks. I'm a long-term fan of Lonely Planet guidebooks. This one is updated as of April 2016, so it's about as current a guide as you're likely to find anywhere. Highly recommended.

Think Lonely Planet is simply the best series. Travel as much as I can, LP is always the first choice in guide books!

Great descriptions without being too long!

great background for travellers

Great tips
